Description

The Rainbow Sensory Fidget Board is a colourful hands-on activity designed to boost focus, calm nerves, and build fine motor skills, all without a screen in sight. With 10 vibrant silicone cords and a flexible board, it encourages threading, bow-making, and endless creative play. Great for improving dexterity, coordination, and cognitive development, it's especially helpful for those with ADHD, autism, or anxiety. Lightweight and travel-ready, it's the kind of quiet, mess-free fun that keeps little (and big) hands busy wherever you are.
