Notes

Details such as measure, weight indications are approximate figures only. We reserve the right to change colours, printable areas, technical details or designs.

To achieve effective branding logo display, we recommend the following:

- For the front chest and mid back, we suggest a maximum width of 30cm. To best effect, please use a minimum width of 10cm.
- All text must be legible.
- All text must be legible.

To achieve effective branding logo display, we recommend the following:

- Maximum width of logo is 10cm. For size L, please use the below example.
- All text must be legible.

Please note that designs that extend from the body of the item to the neckline or collar, often may not match up perfectly due to differences in curves of the material.

When a pattern extends across 2 panels, such as connecting the front and back panels in a side seam, often designs will not perfectly align. Generally there's about 0.5cm allowance for this mismatch.
