Notes

Details such as measure, weight indications are approximate figures only. We reserve the right to change colours, printable areas, technical details or designs.

To achieve effective branding logo display, we recommend the following:

- For the front chest area and back, we suggest a minimum width of 10cm for the logo, with a minimum height of 5cm.
- All text must be legible.
- All text must be away from the seam of the article.

Please note that designs that extend from the body of the item to the sleeve or collar, often may not match up perfectly due to differences in curves of the material.

When a pattern extends across 2 panels, such as connecting the front and back panels in a side seam, often designs will not perfectly align. Generally there's about 0.5cm allowance for this mismatch.

ADDITIONAL CUSTOM LABEL AND PACKAGING

To achieve effective branding logo display, we recommend the following:

- Minimum width of logo is 10cm for size L, other sizes will be scaled accordingly.
- All text must be away from the seam of the article.
