Description

Environmentally conscious 5W wireless charging stand which is manufactured from bamboo. It is compatible with devices that are enabled for wireless charging and will charge most modern phones. Simply plug it into any USB port or a mains adaptor and place a compatible device on it for convenient wireless charging. It is supplied in two parts which are easily assembled along with an 80cm Micro-B USB cable and an instruction leaflet. Bamboo is a natural material which produces unavoidable variances in the grain pattern, colour and branding. Please note that some phone cases may affect the wireless charging connection. The wireless charger will work at the optimum power level when used with a 5V/2.4A mains adaptor. Using a PC/laptop USB output to power the wireless charger may lead to slow charging, or not charging at all. Other factors like, positioning on the charging surface and the type of case used may also impact wireless charging. Bamboo is a natural material and because the plant is fast growing, it places less demands on natural resources and produces a material that is durable and versatile. Bamboo can also produce unavoidable variances in the grain pattern, colour and branding.
