### Description

An effective low cost promotional product well suited for volume mailers or letter box drop. They are printed with a gloss laminate coating. For not much more these calendars can be formed cut to any shape or size. (Calendars are not provided). Poly bagging add TBA(G) per unit. Variable data printing (VDP) (Also known as variable-information printing (VIP) or VI) is a form of digital printing, including on-demand printing, in which elements such as text, graphics and images may be changed from one printed piece to the next, without stopping or slowing down the printing process and using information from a database or external file. For example, a set of labels, each with the same basic layout, can be printed with a different name on each label. Variable data printing is mainly used for direct marketing, customer relationship management, advertising, invoicing and applying addressing on selfmailers, brochures or postcard campaigns.
