Description

A great value, low cost promotional tool, with too many marketing applications to mention. Manufactured out of card (300gsm) with gloss finish. Options include pop-outs and perforations. Variable-data printing (VDP) (Also known as variable-information printing (VIP) or VI) is a form of digital printing, including on-demand printing, in which elements such as text, graphics and images may be changed from one printed piece to the next, without stopping or slowing down the printing process and using information from a database or external file. For example, a set of labels, each with the same basic layout, can be printed with a different name on each label. Variable data printing is mainly used for direct marketing, customer relationship management, advertising, invoicing and applying addressing on selfmailers, brochures or postcard campaigns.

Details

Item Size

Order Process

Order/ Quoting

Request a quote by Quick Quotation or email to us enquiry@promotionalproductsaus.com.au with decoration, deadline and quantity requirements and we will send you quotation for approval.

Artwork

Email us back your logo file (preferable in vector EPS, AI, PDF or SVG) and instructions. We will then create a mock up proof / visual for your approval.

Production

Once you approve your mock up proof, it goes into production to be your unique logo branded promotional items.

Delivery

We dispatch your products by a leading freight carrier.
