Description

Note Pads available in A4 format. Printed in 4 colour process. The sheets are glued at the head and have a strawboard backing. This range has proved a highly successful and long life promotional product. 25 leaves per pad Stock: 80gsm white bond. Variable-data printing (VDP) (Also known as variable-information printing (VIP) or VI) is a form of digital printing, including on-demand printing, in which elements such as text, graphics and images may be changed from one printed piece to the next, without stopping or slowing down the printing process and using information from a database or external file. For example, a set of labels, each with the same basic layout, can be printed with a different name on each label. Variable data printing is mainly used for direct marketing, customer relationship management, advertising, invoicing and applying addressing on self-mailers, brochures or postcard campaigns.
