Description

Tote bag is made from natural jute plant fibre and now includes a 140 GSM Cotton pocket on the front. Reforest Jute Bags help contribute to landscape restoration and every time an order is produced we will arrange for native trees to be planted around Australia. Every 100 units sold generates one native tree being donated and replanted into degraded land in Australia. Each bag has a recycled paper tag attached with a note to recipients about this program. Material: Vegetable Fibre & 140 GSM Cotton. Please note a standard digital transfer CMYK cannot be exactly PMS matched. To convert artwork colours from CMYK to PMS is TBA per colour. For digital transfer printing, please ensure art and colours are at full opacity.
