

Digital Galilee 443mL Tumbler**BRIGHT**
PROMOTIONAL PRODUCTSURL Link: <https://promotionalproductsaus.com.au/product/digital-galilee-443ml-tumbler>**Description**

The Digital Galilee Tumbler offers a standout way to showcase your branding. With a digital colour insert that allows for custom graphics, photos, logos, and text, this mug offers endless design possibilities for a single setup charge. Featuring a screw-on lock top lid for secure sipping, it holds 443ml and is ideal for bringing your brand to life with vibrant, detailed designs. Variable Data Printing (VDP) is a digital printing method that allows for the customisation of each printed piece without interrupting or slowing down the printing process. Using data from a database or external file, elements such as text, graphics, and images can be altered from one piece to the next. This is ideal for applications like direct marketing, customer relationship management, and advertising. A common use is for printing personalized labels, postcards, brochures, or mailers, where each piece may contain different information (e.g., names, addresses, or unique graphics), making it perfect for targeted campaigns.
